BAGS ARE PACKED, READY TO GO?

Before you hit the sunny shores of SA, there are a few things you'll need to put in place, of which one is applying for a Retirement Visa.

RETIREMENTS VISA REQUIREMENTS

If you are applying for a retirement visa in South Africa, you will need:

You are required to provide proof of an irrevocable annuity that realises a minimum monthly income of R37 500 for yourself and R3 000 for your dependant. This amount can be a monthly withdrawal from your retirement annuity or pension fund. It can also derive from a combination of assets realising R37 500, on the condition that supporting documentation can be provided.
